\*The Purple Course is designed to build confidence in children ages 4-6. We encourage kids this age to try the Purple Trail several times before the majority of the group has started the other trails of the Treetops Park. This course is designed to build confidence and decrease pressure for these kids when they attempt the higher courses.

**Monitored:** Adult (18+) actively observing progress, success, and safety (from the ground or on the same trail) as outlines on the Age Requirement chart

**Escort:** Adult (18+) climbing with participant with ration of 1 adult-1 youth or 1 adult-2 youth as outlined on the Age Requirement chart

**Independent:** permitted to climb and explore the course without adult supervision or access restrictions
